Africa World Geography for Kids and Beginners 1.

This book is written with you and your happiness in mind.

We believe that the best way to learn and retain information is to make it a way of enjoyment and having fun. That is why we incorporated many colors, images, and pictures in this book that contains History, Economics and Geography. I believe that you will not only enjoy this book, you will also enjoy the other similar books in this series that cover other continents and the entire world.

As a person living in this new age of a fast-moving society, driven by the internet and other technologies, you would like access important and useful information that this book and the others books in the series will bring to you. This is true

whether you are an adult or a young person. It is true no matter which country, continent, or the region you live or wish to learn about. It is even more important is the fact that the world is now a global village. Geography is no longer an obstacle as people can live, travel, or work anywhere without physically.

The book's format is deliberate, to summarise on each card or page all the important information that you would require to answer the important questions that you might have.

There are four books in the series, each looking at a different segment of the important information that you might need for any one of the world's countries.

Some of the other books in this series(Dizzy's World Almanac) are:

1 World Geography For Kids & Beginners. Volume 1

2 World Geography For Kids & Beginners. Volume 2

3 World Geography For Kids & Beginners. Volume 3

4 World Geography For Kids & Beginners. Volume 4

5 Africa World Geography For Kids & Beginners.

6 America World Geography For Kids & Beginners.

7 Europe World Geography For Kids & Beginners.

8 Asia World Geography For Kids & Beginners.

9 Oceania World Geography For Kids & Beginners.

This particular book, Africa World Geography For Kids & Beginners, will specifically address some of the important information for each country.

Regarding;

- The name of the country,
- Total population rounded to millions or thousands for smaller countries,
- The capital city,
- Name of the continent or region
- Map profile of the country

- The Flag of the country
- The map of the Continent.

The second and third books will provide other data and information about these 50+ countries in the African continent.

These books all share a common format of simplicity, information, graphic representations, short and concise presentation. They are all easy to read and understand for anyone, irrespective of your age, nationality, religion, education, and literacy level.

They do not have all the unnecessary fluff that makes most books lengthy and laborious to read and get the important information you need.

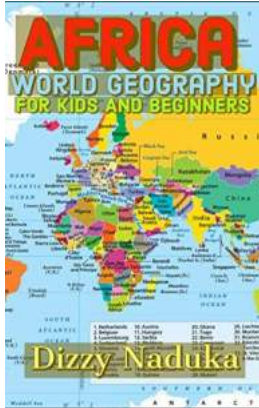

The fourth book, World Almanac, Volume 4, is a bundle that combines all the important information and data from the other volumes into one book. It will also continue with the same format of one country per card/page. This combined volume would be attractive to those who wish to have all the important data for each country in one place some other book,

I decided to write these books to ease the burden of sifting through large volumes of information, extracting the important data that you need to make critical choices decisions, or just learning more about the target countries. Each time I needed such information, I had to go through large volumes of content before finding the information I needed. Hence I thought that you might have similar needs from time to time. So I decided to make life easier for you with these books.

With all the books combined, you will get a complete picture of each country in the world regarding the following indices, For each country we have listed.

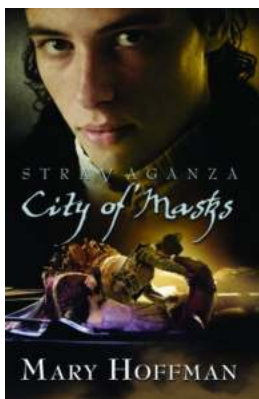

- The Name of the country
- The unique Country Telephone Code

- The Continent
- The Capital City
- The National currency
