The latest story in my twisted travel tales. The usual same ol' thing, raving, drugs and drinking. This time though in India. What more do you expect? What's happened to the trance scene in Goa? Where are the hippies now? Did you ever want to know where to buy Ketamine in Delhi? What's the best way to cook it down? We go in search for all of it. The colours, the laughs, the shits the aggravation. The Long Road.... There's also some sound advice on drug trafficking if you read into it enough. There's not really much about India or even trying to get to understand it. Don't expect to read much about the local culture, this is just an arrogant and ignorant drug taker's guide to India.
