

# How To Retire Overseas: Live Large For \$1500 Month Or Less

Retirement is often seen as a time to relax and enjoy the fruits of years of hard work. For many people, this means living a life of leisure in a comfortable and affordable location. One option that has gained popularity in recent years is retiring overseas. Not only does this offer a chance for adventure and new experiences, but it can also be a way to stretch retirement savings and live a more luxurious lifestyle than would be possible in one's home country.

Imagine waking up every morning to warm tropical breezes, the sound of waves crashing against the shore, and the smell of freshly brewed coffee. Picture spending your days exploring ancient ruins, lounging on pristine beaches, and immersing yourself in a new culture. All of this can be yours for just \$1500 a month or less.

## Why Retire Overseas?

There are several reasons why retiring overseas has become such an attractive option for many retirees. One of the main advantages is the lower cost of living. In many countries, the cost of housing, food, and healthcare is significantly lower than in the United States or other Western countries. This means that retirees can live a more comfortable and luxurious lifestyle on a smaller budget.

In addition to the lower cost of living, retiring overseas offers the chance for adventure and new experiences. From exploring ancient ruins in Greece to hiking through the rainforests of Costa Rica, there is no shortage of things to see and do. Retirees can immerse themselves in a new culture, learn a new language, and make new friends from all over the world.

## Choosing the Perfect Destination

When it comes to retiring overseas, choosing the perfect destination is crucial. Not all countries offer the same benefits and advantages. Some countries may have a high cost of living, while others may not have the infrastructure or healthcare system to support retirees. It is important to do thorough research and consider factors such as climate, cost of living, healthcare, and safety.

One popular destination for retirees is Mexico. With its warm climate, beautiful beaches, and low cost of living, Mexico offers a great quality of life at an affordable price. The country has a large expat community, making it easy to meet other retirees and make new friends.

Another popular destination is Costa Rica. With its stunning natural beauty, affordable healthcare, and high quality of life, Costa Rica has become a haven for

retirees. The country also offers a variety of residency options, making it easy for retirees to make it their permanent home.

## **Living Large on a Budget**

Living overseas doesn't mean sacrificing the comforts and luxuries of home. In fact, many retirees find that they can live a more luxurious lifestyle on a smaller budget. One of the main reasons for this is the lower cost of housing. In countries like Mexico and Costa Rica, retirees can live in a spacious, fully furnished home for a fraction of the cost of a similar property in the United States.

Food is another area where retirees can save a significant amount of money. Fresh fruits, vegetables, and seafood are often much cheaper in other countries. Eating out at local restaurants is also a fraction of the cost of dining out in the United States.

Healthcare is another important factor to consider when retiring overseas. Many countries offer high-quality healthcare at a fraction of the cost of healthcare in the United States. Retirees can access a range of medical services, including doctor visits, hospital stays, and prescription medications, for a fraction of what they would pay in their home country.

Retiring overseas can be the perfect way to live a life of adventure and luxury on a smaller budget. With a lower cost of living, the opportunity for new experiences, and the chance to immerse oneself in a new culture, retiring overseas is an option that should not be overlooked. Whether it's exploring ancient ruins in Greece or lounging on pristine beaches in Mexico, retiring overseas offers the chance to live large for \$1500 a month or less.

Are you worried about the rising cost of retirement? Is your retirement nest egg not as much as you had planned or hoped to save? Are you looking for a way to live comfortably once you stop working?

Consider living abroad!

It is my pleasure to share with you the experiences of the world's most frugal retiree travelers. I hope that this book provides inspiration and direction.

There are 10 specific places where you can comfortably live off \$1,500/month or LESS!

I would like to encourage you to take a journey that will change the way you look at the world. Post-retirement is a beautiful thing, and you don't have to wait until your 50s or 60s to enjoy it.

It's common for retirees to enjoy retirement by taking stock of their life, enjoying the freedom from the 9-to-5 grind, and doing what they like. Others may see it as

a chance to fulfill their long-held dreams and travel overseas. It is imperative you know the benefits and drawbacks of retiring abroad if you can't decide what kind of life you want following the end of your professional career.

This book offers you a chance to live a life of leisure for as little as \$1,500 a month. Within the pages of this guide, I will explain how Linda and I paid off our mortgage and left the U.S. in less than a year after retiring. So, the sooner you plan for the retirement phase, the more money you will save. The 10 countries I recommend span a wide range, from a surfers' haven in Nicaragua, where you can live like royalty for \$1,300 USD per month, to metropolitan Bangkok with uber-esque conveniences and luxury epicenters.

We are living the dream; you can, too!

I would state that Linda and I have found our dream lifestyle—for about 1/10th of what it would cost us here in America. Many people are too afraid to even think about retiring overseas because they think it will be too expensive or difficult. Life for us in Nazare, Portugal, has proven to be affordable and easy (and life-affirming). It's been over four years since we moved to Nazare, and we're no closer to returning than when we arrived. This place is home.
