This is a story based on my own true life experiences, growing up in a world full of technological advancement coupled with global tensions and turmoil, providing a backdrop for the yearnings of peace and tranquility, as found in the enticing realm of a silent refuge beneath the currents of mankind's turbulence. Even in such a utopia, the benefits are but temporary, and, like anywhere else, there is no exemption from the implications of tragedy. This manuscript is dedicated to the memory and the unfortunately abbreviated life of Lawrence "Bucky" Hilliker, whose character is integral to this story.
