Waterton Lakes National Park is a place "where the mountains meet the prairie," a unique juxtaposition of prairie flatlands and some of the most ancient mountains in the Canadian Rockies.

Protecting 203 square miles in the southwest corner of Alberta, the park is bordered by British Columbia on the west, Montana to the south and to the north and east by forest and private lands. A World Heritage Site, Waterton Lakes National Park and Montana's Glacier National Park are designated as the Waterton-Glacier International Peace Park, a symbol of peace and goodwill between Canada and the United States and a partnership of shared resources.
