Enjoyed this book very much. Quite different to most of the sailing books I've read. A very frank story told with determination to complete an incredible journey.

Reader in USA, 2020

In the broad world of sailing few sailors ever venture to sea and fewer of these ever complete a circumnavigation of the world, of which few write about their voyage. Here is one such voyage conducted by a 'weekend sailor' in an ageing catamaran, quite modestly. The writing is engaging without being dramatic as the author lets the story speak for itself. In the end I found it a very enjoyable read, even the second time around. This is a sailing yarn with many of the elements that made Hiscock, Pardy and Smeeton so well regarded. Readable to both kinds of people, those that sail and those that don't. Reader in Australia, 2016.

Solo circumnavigation with your standard British humor. One of the better cruising books on the market. Totally relatable in many respects. Reader in USA, 2020.

A great read for any catamaran owner planning a cruising adventure. In one of the first production catamarans built, Philip shows just what can be accomplished with good planning and seamanship in a boat not designed for the task. Highly recommended. An interesting read. Not a cruising log. Reader in Australia, 2017.
