Having achieved the exalted position of a Chief Warlord, Tecpatl was content, happy with his career and his family. Even his refusal to take an additional wife, a necessary thing for a man of his status, especially if his woman was a barbarian imported from the distant lands of Anasazi, did nothing to hinder his progress up the Tepanec military ladder. He was too successful as a War Leader to care about the opinions of others.

Yet, when the old Emperor dies, leaving two dominant heirs to struggle for succession, Tecpatl suddenly finds it difficult to follow the edicts of the dead ruler. With Atolli, his elder son and a very promising but hotheaded youth, getting caught in the political turmoil, everything changes. Tecpatl is forced to choose between his duty and his family, while his wife takes her own non-traditional paths to deal with the crisis.
