The Read Progression:

The first step in coaching quarterbacks for option plays is understanding the read progression. Our system emphasizes teaching quarterbacks to read the defense from pre-snap to post-snap. It involves recognizing defensive alignments, keying defenders, and making quick decisions based on their movements. By teaching your quarterbacks this progression, they will be able to make split-second decisions with confidence and precision.

Footwork and Mechanics:

Quarterbacks must have excellent footwork and mechanics to execute option plays with precision. Our system focuses on teaching the proper footwork and mechanics required for each option play, ensuring that your quarterbacks maintain balance, agility, and power throughout the play. From the initial mesh point to the pitch, every movement is analyzed and perfected to maximize effectiveness.

Simulation and Game Repetition:

Practice makes perfect, and our system incorporates ample simulation and game repetition drills to reinforce the concepts taught. By providing your quarterbacks with realistic game scenarios, they will develop muscle memory and instinctual decision-making abilities. Our drills will push their limits, boost their confidence, and enable them to execute option plays flawlessly in high-pressure situations.

The Mental Aspect:

Running option plays is not only physical but also mental. Our system addresses the mental aspect by teaching quarterbacks how to read defenses, make quick decisions, and communicate effectively with their teammates. By developing their football IQ, your quarterbacks will become efficient decision-makers, capable of exploiting weaknesses in the defense.

The Role of Film Study:

Film study is an integral part of coaching quarterbacks for option plays in our system. By analyzing game footage, quarterbacks can identify patterns, study opposing defenses, and learn from both successful and unsuccessful plays. Our system provides a structured approach to film study, ensuring that your quarterbacks make the most out of every film session.

On-field Adjustments:

Option plays require on-field adjustments based on the defense's reaction. Our system equips quarterbacks with the tools to make necessary adjustments, audibles, or calls at the line of scrimmage. These in-game adjustments will keep the defense guessing, maximizing the effectiveness of your option plays.

Perfecting Timing and Execution:

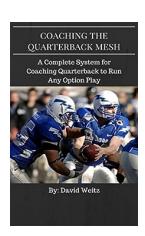

Timing and execution are paramount for successful option plays. Our system includes drills and exercises that focus on developing the timing and execution needed for flawless plays. By mastering the intricacies of timing and execution, your quarterbacks will exploit gaps in the defense, leaving the opposing team helpless.

Building a Cohesive Offensive Unit:

Lastly, our system emphasizes the importance of building a cohesive offensive unit. Our approach involves integrating the running backs, offensive line, and

wide receivers to work in sync with the quarterback. A well-coordinated offensive unit ensures seamless execution of option plays, making it difficult for the defense to defend against.

In , our complete system provides a comprehensive roadmap for coaching quarterbacks to run any option play. By focusing on read progression, footwork, mechanics, simulations, mental aspects, film study, on-field adjustments, timing, execution, and building a cohesive unit, your quarterbacks will become unstoppable forces on the field. So, what are you waiting for? Unlock the secret to success and witness the transformation of your quarterbacks into option play maestros!

The QB-RB mesh is one of the most universal, and under coached, skills in modern football. From Flexbone/Wing-T based option attacks to Spread Zone Read concepts the mesh is the one skill that must be mastered to have an effective offense.

The mesh is the one skill with the highest return on investment for coaching time. If done successfully a well read and executed mesh can cancel out up to three players. A poorly read mesh will result in a loss of yards in a best case scenario, and a turnover in a worst case scenario.

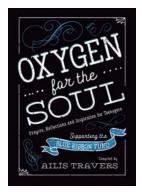

Coaching the Quarterback Mesh gives coaches a system to teach this skill by breaking it down into five steps. These steps are then broken down further where the specific coaching points for each step are detailed. Lastly the book takes the system and applies it to the main plays that have a QB-RB mesh. This includes; Midline, Inside Veer, Outside Veer, Inside Zone, Outside Zone and Inverted Power.

Take the next step in coaching your Quarterbacks and created a high powered offense with Coaching the Quarterback Mesh.
