An eclectic depiction of events some actual and some fantasied. Although a number of the articles are of a serious nature, many reek of absurdity and the intention is then satirical farce to bring about amusement.

The poetry included is not quite doggerel but certainly not the sublime variety of serious poets. Just a means to better tell a sentiment or story

The overall format is a magazine style so one can drift from one entry to another with almost no continuity involved. A good read to overcome insomnia or boring television fare.
