How much pixie dust is there at Walt Disney World, anyway? Can you count it? Nope. But there are many things at Disney World you can count, and Tony Caselnova has counted and measured and calculated and quantified them all.

You'll learn things about the Disney World theme parks and resorts that you never knew before—and that you never thought to ask.

Think you know Space Mountain? Tony knows the length of the tracks, the speed of the rockets, how many guests can ride per hour, how much of the ride is below ground, the weight of the concrete beams that support the mountain, and much,

much more to amaze and edify any Disney fan (and especially the ones who think they know it all).

And that's just Space Mountain. Every Disney World theme park, resort, attraction, and show is "enumerated" in the book, as well as Disney dining, Disney transportation, Disney recreation, and Disney water parks. You'll even find out how much Disney pays in taxes!
